**Subject: Allocation of Final Year Project to University of Central Punjab Students**

Respected Sir Asif Farooq,

I am writing on behalf of Nextonix to formally allocate the final year project titled "AssetIn: Asset Management Tool" to the following students of the University of Central Punjab for their final year project and subsequent implementation in our company:

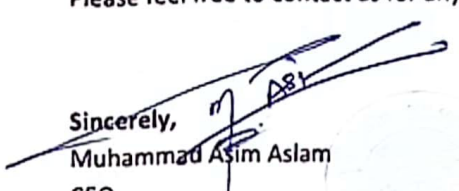

Muhammad Burhan (L1F21BSCS1059)  
Areeba Khan (L1F21BSCS0485)  
Noor-ul-Aain Maqbool (L1F21BSCS0484)

This project is not only their final year project but will also be implemented in our organization, Nextonix. We are confident in the students' abilities and believe that this project will provide them with invaluable practical experience.

The project involves developing a simplified and comprehensive asset management system that meets the specific needs of our organization. The scope and high-level features of the project have been outlined in the attached documentation. Our team at Nextonix will be providing guidance and support throughout the development process to ensure the students are successful in meeting the project goals.

We look forward to working closely with these students and the faculty to achieve a successful outcome.

Please feel free to contact us for any further details or clarifications.

Sincerely,  
  
Muhammad Asim Aslam  
CEO  
Nextonix
